ARRL Field Day 2021

At this year's AGM, it was decided that we would do Field Day from home like last year.

The temporary COVID rules from last year have been extended to this year. This means that home stations can make contacts for points and points from individuals can be combined for a club score.

If you decide to participate in Field Day, please consider using “Sun Coast Amateur Radio Club Society” as you club name to accumulate point for the club.

More information on dates and rules can be found here: http://www.arrl.org/field-day
