Wiki Introduction Outline

Public vs AREDN sites

- This site: https://wcaredn.ca
- AREDN site: http://va7fi-linux.local.mesh/wiki

Quick Tour

- Structure of the site (so far).
- `home` page name vs other name.
- Difference between a “page” and a “namespaces” (look at the Sitemap)
    - Keeps media files organized (look at Media Manager)
- Recent Changes

Your Turn

- ~~Login as `guest` (password will be provided during the session)~~ ← now disabled
- Navigate to /Setups/YourCallsign/ and play around to get started on your setup page.[1)]
- In a few hours / days / weeks, when you feel your setup page is “worthy” of attention, add a link to it on the Setups page.

While you work on your setup page, I'll show you:

- The Quickbutton bar
- Save vs Preview
- /wikisyntax/

Fixing Mistakes

- Recent Changes

Getting an Account

- Email me at va7fi@rbox.me
- Subject line: `wcarden account`
- Body: Your name and callsign

And I'll reply with a temporary password (your username will be your callsign in lowercase).

- You should then change your temporary password use the `Update Profile` link.

1)

Note that while a page is being edited, it is “locked” and can't be edited by anyone else (hence we're all practicing on different pages).
