

Preparing for the Puddle Jumper Classic #2

This past Sunday, VE7HZF and VE7RBE went with Mike and Randi, the Puddle Jumper Classic race organizers, to the three race stations and the start/finish.

We discussed:

- precise locations of the race stations
- runner routes by the stations
- equipment
- timing of events
- expectations

It was an informative meeting and planning for the day has progressed substantially. We are looking forward to the race on June 8th.
