Lots To Do

I'm bumping this post back to the top before or monthly meeting this Saturday...

Our last monthly meeting was packed with actionable items and many of us have some homework to do before the next meeting.

One item that the executive discussed at the end of the meeting was to migrate the meeting minutes over to this website. This is done and members can now find them in the Members' Corner.

The rest of the two do list for this month can be found in the July 27, 2019 section.

Everyone is encouraged to add *New Business* items they would like to see discussed the the proper section.
