

What's New on the Website

This is a running post that we can bump back up to the top whenever we make significant changes or add sections to the website.

News Feed

- **New** Moved the News feed links from the sidebar to the front page:

How-To

- **New** [Welcome to the Club!](#) page for new members.
- [APRS](#) on Windows computer with signalink.
- [Winlink P2P messaging](#).

Links Page

- **New** Removed the Swap Shop page from our website to make room in the header and added a link to the [BC Swap](#) on the [links](#) page.
- VE7HZF combined the [BCARCC](#) 2m and 70cm pdf repeater lists into one spreadsheet. It's posted in the [VHF/UHF Repeater Section](#).
- There are new links in the [Scanner Frequencies Section](#) to search commercial frequencies. Feel free to add more to the list if you know of other good sites.

Emergency Page

- VE7HZF did a lot of work on the [Emergency Main Page](#) and
- Reformatted VE7XNC's excellent "Sunshine Coast Emergency Communications" pdf document to integrate it into the website on [this page](#)

Echolink Log

- The Echolink connection logs in the [Member's Corner](#) have been broken up by month instead of one giant file. VE7HZF will try to update every month or so.
