

What's New on the Website

This is a running post that we can bump back up to the top whenever we make significant changes or add sections to the website.

News Feed

- Added tags to each post using the year and month to add filtering and sorting capability to the list.

The screenshot shows a web interface for 'BlogTNG'. It features a search bar at the top. Below it, there are two filter sections. The first section is labeled 'Blog' and has a dropdown menu currently set to 'default'. The second section is labeled 'Tags' and has a text input field containing '2020, Jan'.

For the tags to work, the month must be formatted as the first three letters: Jan, Feb, Mar, Apr, May, Jun, Jul, Aug, Sep, Oct, Nov, Dec
