# What's New

This is a running post that we can bump back up to the top whenever we make significant changes or add sections to the website.
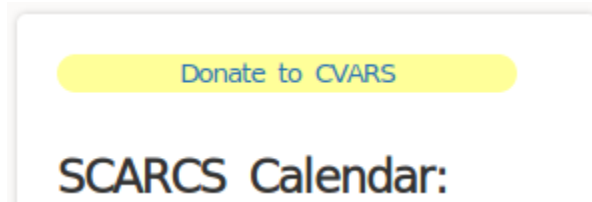

News Feed

- New: Added `tags` to each post using the year and month to add filtering and sorting capability to the list.

  For the tags to work, the month must be formatted as the first three letters: `Jan, Feb, Mar, Apr, May, Jun, Jul, Aug, Sep, Oct, Nov, Dec`
- New: Any news item with a tag `pin` will also appear at the top of the side bar. This should be used sparingly for a few days / weeks for important items we want to keep at the top.

Member's Page

- Uploaded the Societies Bylaws.
- The Echolink log is updated every month of so.
- Created page for users to update their website password

Refs

- New: A new References page.
- New: Radio Programming page about how to get on repeaters on VHF.

How-To

- New: CHRIP page.
- Digital Concept primer page.
- A few other pages in the Miscellaneous section.
