

# VE7SCK Update

The VE7SCK 440 repeater information has been updated with the [BC Amateur Radio Coordination Council](#) and will show next time they update their site. I've also updated the tone to 100.0 Hz on the repeater itself so you'll need to change your radios accordingly:

<b>VE7SCK</b>	442.650 MHz	+5.000 MHz	T100.0 Hz
---------------	-------------	------------	-----------

But the big news is that today, Bob and Patrick finished moving the repeater to the Roberts Creek Fire hall. See a few pictures
