Winter Field Day 2020

This year (Jan 25, 2020), Winter Field Day will be in Porpoise Bay Provincial Park (49.5048,-123.7520)

We are planing on bringing small BBQs. Everyone (ham or not and their families) is welcome! Please bring your food, drink, and camping chairs.

About the Site

The Park has two covered areas and plenty of trees to hang antennas. One of them is even halfway between two good trees over 20m away on each side (enough room for an 80m dipole!):

View from the road looking toward the water.

View from the water looking toward the road.

Solar will probably not be an option because of the trees.

Equipment

Please sign up on the list below to indicate who is bringing what. Also feel free to add to the list if you think of anything else.
