

Repeater List

Today I finished reprogramming my radios. I added a bunch of frequencies from the island and corrected a few mistakes. Here are my lists:

- [Spreadsheet List](#)
- [PDF List](#)
- [Chirp List](#)

My mobile QYT KT-8900 radios have all channels programmed in, where as the Baofeng radios only have channels 0 to 127. The Link columns identifies repeaters that are linked together. I tried to roughly sort them from North to South, while trying to keep linked repeaters grouped together. And for the mainland, from West to East. If you notice any mistakes, please let me know.
