

# Repeater List

Today I finished reprogramming my radios. I added a bunch of frequencies from the island and corrected a few mistakes. Here are my lists:

- [Spreadsheet List](#)
- [PDF List](#)
- [Chirp List](#)

And a few details:

- My mobile QYT KT-8900 radios have all channels programmed in, where as the Baofeng radios only have channels 0 to 127.
- The Link columns identifies repeaters that are linked together.
- I tried to roughly sort repeaters from North to South for the Island and West to East for the mainland, while trying to keep linked repeaters grouped together.
- For Channel 1 (XbandR) is what I use when I need to setup a [crossband repeater](#).
- See the [Links: Scanner Frequencies](#) page for more information about the non-ham frequencies listed.
- The Channels I hang out on most are: Ch. 2, 3, 12, 21, 27, 44, 58

If you notice any mistakes, please let me know.
