

BC Hydro RFI

Today on the Nanaimo HF net¹⁾, Devan (VE7LSE) mentioned [this page](#) to get in touch with BC hydro to report RFI from their transformers. Apparently, RFI is something BC Hydro wants to know about because it's often a symptom of faulty equipment that cost them power losses (and therefore \$\$).

¹⁾

The Nanaimo HF net is on 3744 kHz on Sundays at 16:30.
