

Donate to CVARS

The [Cowichan Valley Amateur Radio Society](#) is in need of donations in order to upgrade the batteries and the power system for the [VE7RNA](#) and 6m VE7AQW repeaters on Mount Brenton. These repeaters have a huge footprint and when they went off last time, quite a big chunk of Vancouver Island and parts of the mainland went quiet.

To donate, see the front page of their website.

You can also see their [battery telemetry](#), which is quite interesting.
