

Donate to CVARs

The [Cowichan Valley Amateur Radio Society](#) is still in need of donations in order to upgrade the batteries and the power system for the [VE7AQW](#) repeaters on Mount Brenton. These repeaters have a huge footprint and when they went off last time, quite a big chunk of Vancouver Island and parts of the mainland went quiet.

They have set up a [gofundme page](#).

You can also see their [battery telemetry](#), which is quite interesting.
