

Very Brief History of SDR

I really like the Cory Doctorow podcast, which usually has a brief intro, then a short reading of sorts, and then a debrief of the reading. [This week](#), Cory reads part 14th of this first novel (which I read years ago), and in the debrief, said something really interesting about GNU radio and SDR in general.

Here's a snip of that podcast starting at 22:40 until the end:
