

Temporary VE7SCK Crossband Link

The plan is to setup a permanent RF link between VE7SCK (442.650 + T100.0) in Roberts Creek and VE7RXZ (147.220 + T100.0) in Nanaimo. But until then, I setup a [cheap crossband repeater](#) to link both repeaters that I'll be turning on when I'm around the house (and off at night or when I'm away from the house). 

So those in the Roberts Creek area might find it easier to get into the repeater through VE7SCK.
