

# New Site Template

Unfortunately, it looks like the old [20Cones](#) template we were using hasn't been updated since 2014 and it was starting to cause issues with some other parts of the website. Until I find a better template, I reverted back to the default with some customization.

The old template:

The screenshot shows the old website template. The header is dark with the club logo and name on the left, and search, admin, and login links on the right. A green navigation bar contains links for Home, Club Info, Nets, Emergency, How-To, Refs, Links, History, Photos, and For Members. The main content area has a 'Welcome' section with introductory text and buttons for 'Create a News Item', 'See Full News Feed', and 'Edit'. Below this is a 'Recent News' section with two items: 'Decoding James Web Telescope' and 'Temporary VE7SCK Crossband Link DISCONNECTED'. On the right, there is a 'SCARCS Calendar' showing the date as Tuesday, December 28, with a net scheduled for 9:30am.

The new template:

The screenshot shows the new website template. The header is light gray with the club logo and name on the left, and a login status 'Logged in as: Patrick, VA7FI (va7fi)' with links for 'Update Profile', 'Admin', and 'Log Out' on the right. A search bar is also present. The navigation bar is light gray with links for Home, Club Info, Nets, Emergency, How-To, Refs, Links, History, Photos, and For Members. The main content area is similar to the old template but with a cleaner layout. The 'Welcome' section and 'Recent News' section are identical. The 'SCARCS Calendar' is no longer present on the right side.

Things that are still missing:

- A better top navigation bar that collapse properly on mobile devices.
- A sidebar
