

New Site Template

Unfortunately, it looks like the old [20Cones](#) template we were using hasn't been updated since 2014 and it was starting to cause issues with some other parts of the website. Until I find a better template, I reverted back to the default with some customization.

The old template

The screenshot shows the old website template for the Sun Coast Amateur Radio Club Society. The header is dark blue with the club's logo on the left and navigation links (Admin, Log Out, Search, Recent Changes, Sitemap) on the right. Below the header is a green navigation bar with links: Home, Club Info, Nets, Emergency, How-To, Refs, Links, History, Photos, and For Members. The main content area is white and features a 'Welcome' section with text about the club's activities and repeaters. There are buttons for 'Create a News Item', 'See Full News Feed', and 'Edit'. A 'Recent News' section lists two items: 'Decoding James Web Telescope' by Robert, VE7RBE (2021/12/27) and 'Temporary VE7SCK Crossband Link DISCONNECTED' by Patrick, VA7FI (2021/12/24). On the right side, there is a 'SCARCS Calendar' widget showing the date Tuesday, December 28, 2021, and a 'Net' at 9:30am. A vertical sidebar on the far right contains icons for a pencil, clock, document, and an upward arrow.

You are here: [home](#)

Welcome

The Sun Coast Amateur Radio Club Society organizes activities and events to help members socialize with each other and promote their use of radio communication.

The club maintains a [VHF](#) repeater on Vancouver Island and a [UHF](#) repeater on the Sunshine Coast.

See the [Club Info](#) page to find out more about our repeaters, meetings, or how to become a member.

Things that are still missing:

- A better top navigation bar that collapse properly on mobile devices.
- A sidebar

2/2
