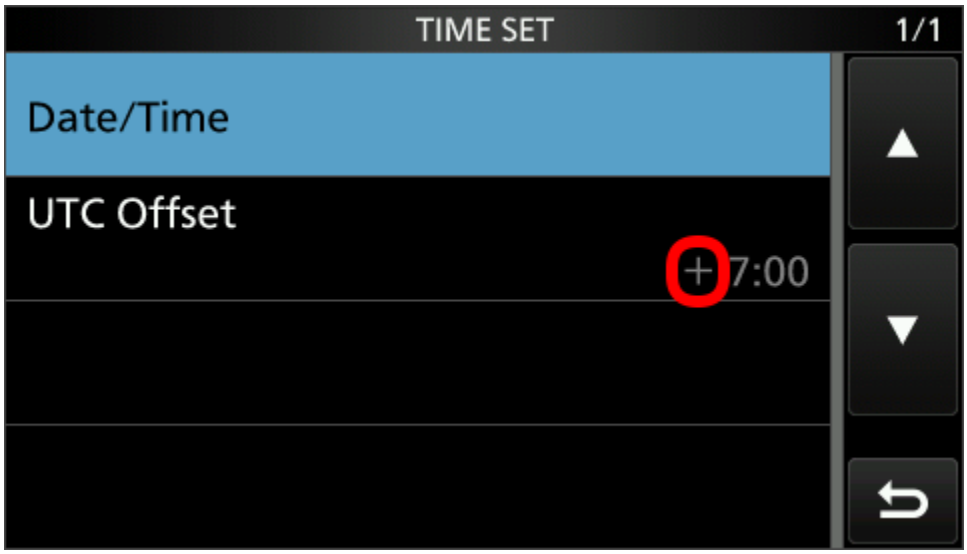
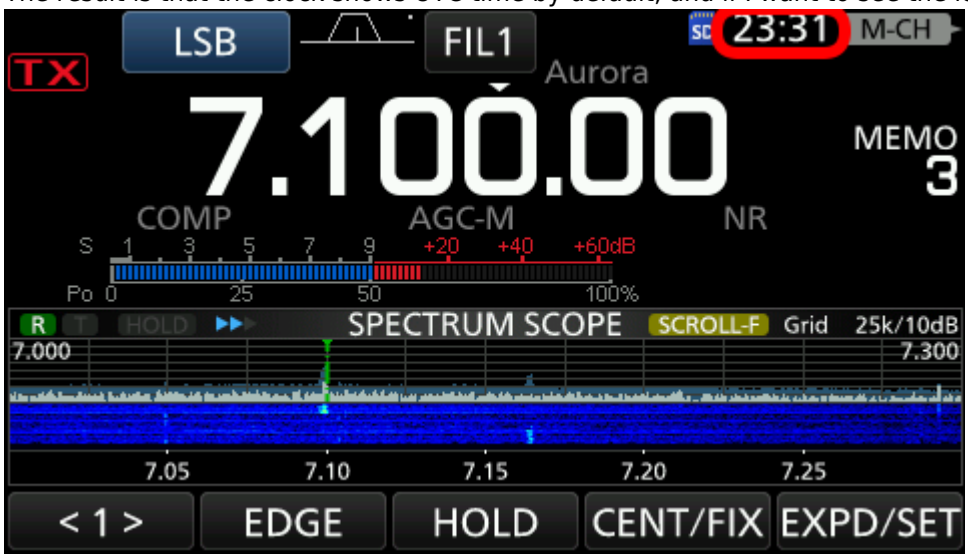
UTC Time on IC-7300

Here's how I setup the time on my IC-7300:

I set the Date/Time to UTC, and I reverse the sign of the UTC offset:



The result is that the clock shows UTC time by default, and if I want to see the local time, I can press on the clock.



CLOCK
TX
M-CH
CLOCK: 2022/05/29 (SUN)
