

News Item Example

This is an example to show people how to post a news item. See [here](#) for more info and to see a video of how this post was created. And if you just want to play around and try stuff, use this [playground page](#).

Here's a video going through how this page was created:

Six equal signs

Level 3

Level 4

Level 5

Level 4

Level 3

Level 1 Headline

Text Type

- **Bold Text**
- *Italic Text*
- Underlined Text
- Monospaced Text
- ~~Strike-through Text~~
- CTRL+ALT+DEL
- Red

- Really small to Huge
- Serif or Sans-serif is that even a question?

Ordered List

1. First Item
2. Second Item
 1. A sub item
 2. another sub item
 1. A sub sub item
 2. second sub sub item
3. Third Item

Unordered List

- First Item
- Second Item
- Third Item
 - A sub Item under the third
 - A sub-sub item
- A Fourth Item

Links

[This text links to the playground](#). Internal links are green.

[OpenStreetMap](#). External links are blue.

Attaching Files

This is a right-aligned picture.

A screenshot of a web browser showing a form titled "Request an Azimuthal Map". The form includes input fields for "Title" (filled with "Roberts Creek"), "Location" (filled with "49.42963,-123.64947" and circled in red), and "Distance" (filled with "4000"). There are also checkboxes for "Label countries", "Label NA states", "Label cities", "Black & white", "Lat/long grid", "Label grids", "Blue background", and "View in browser". A "Paper" dropdown menu is set to "Letter (8.5\" x 11\")". Below the form are buttons for "Create Map" and "Estimate Location". A note at the bottom states "Generating maps takes up to 30 seconds."

This is a really simple PDF file

For more information about PDFs, see [this page](#)

Some Cute Things

Fancy Quote

This text is not visible until it is expended.

For more on the WRAP plugin, see [this page](#).

Tables

Basic Table

One	Two	Three
A	B	C

Highlighted header

One	Two	Three
A	B	C

Alignment

One	Two	Three
A	B	C

Combined Cells

One	Two	Three
A	B and C	
One	Two	Three
A	B	C
D		F

$\frac{\sin x}{n} = 6 \quad \text{"six" get it?}$

As a whole line using two $\frac{\sin x}{n} = 6 \quad \text{"six" get it?}$

Or inline using only one $\frac{\sin x}{n} = 6 \quad$

Other Plugins

There are a lot of plugins installed on this site that are not explicitly explained on the syntax page. However, they are all listed at the end of the [syntax page](#), and each has a link where more information can be found on how to use it.
