

Future Canadian Ham Blogs About His Classes

Doug Nix is a future ham operator from Ontario who's been blogging summaries of classes he's taking through RAC. The articles are very detailed and might be useful to someone wishing to get started with Amateur Radio. Here's the list of topics he's covered so far¹⁾:

- [Foundation](#)
- [Introduction to Electronics](#)
- [Ohm's Law](#)
- [Magnetism and Inductance](#)
- [Capacitance to Resonance](#)
- [Waves, Wavelength, Frequency, and Bands](#)
- [Propagation](#)
- [Transmission Lines](#)
- [Antennas \(Part 1, Part 2\)](#)
- [Diodes, Transistors and Tubes](#)
- [Power Supplies](#)
- [Getting on the Air](#)
- [Transmission Modes](#)
- [Receiver](#)
- [Wrestling with the Noise](#)
- [Safety Fundamentals](#)
- [Understanding Amateur Radio Regulations](#)
- [Amateur Radio Code of Conducts and Ethics](#)
- [Reflection](#)

¹⁾

His last post was on November 21st so I'm guessing he's not done with the course yet. I'll update the list of topics later when he's finished and has posted all of his summaries.
