Consultation on Amendments to the Tower Siting Process

From ISED's Website:

> ISED [...] is [...] initiating a consultation on proposed amendments to the antenna tower siting requirements [...] to reduce regulatory burden on tower proponents.

Here's a 47 minute long video discussion of the proposed changes:

What you can do:

1. Write a response echoing RAC and RAQI's position in electronic format (Microsoft Word or Adobe PDF).
2. Send it by July 16, 2026 to: spectrumoperations-operationsduspectre@ised-isde.gc.ca
3. Cite consulation #: `DGSO-001-26`

> As all comments will be posted on the departmental website, those making submissions are responsible for ensuring that they do not contain confidential or private information.

Update

Here's more info from RAC's website published on June 15th.
