CYD Ham Dashboard

This project seems really interesting:

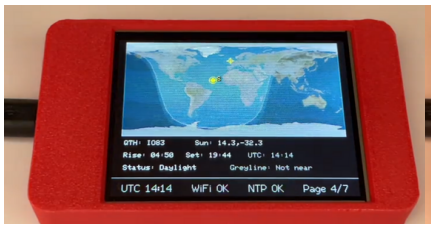

> A HamClock-inspired ham radio dashboard for the ESP32 Cheap Yellow Display, supporting both the 2.8“ ESP32-2432S028R and the 4.0” 320×480 ST7796S variant from a single source tree.

Here are the seven screen it displays:

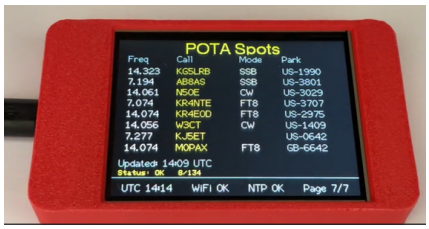

If anyone is thinking of building one, let me know, I'd love to have one of the 4“ ones!
