

About

This site is currently under development. The plan is to have the live wiki (this site) hosted on the open web, and invite local hams to contribute to it. And then have it synchronize to a read-only copy hosted on VA7FI's [Linux Server](#) accessible only on the AREDN network. That way:

- The live wiki will be accessible regardless of what happens to VA7FI's node, and
- A read-only copy will be accessible via AREDN for users without an internet connection.
