

About

This site is currently under development.

This live wiki is hosted on the open internet and edited by hams in the south west area of BC. And then have it synchronize to a read-only copy hosted on VA7FI's [Linux Server](#) accessible only on the AREDN network. That way:

- The live wiki will be accessible regardless of what happens to VA7FI's node, and
- A read-only copy will be accessible via AREDN for users without an internet connection.
