

About

This site is currently under development.

This live wiki is hosted on the open internet and edited by hams in the south west area of BC. Once a day, it is synchronized to a read-only copy hosted on [VA7FI's Linux Server](#) accessible only on the AREDN network. That way:

- The live wiki will be accessible regardless of what happens to VA7FI's node, and
- A read-only copy will be accessible via AREDN for users without an internet connection.
