

About

This site is currently under development.

This live wiki is hosted on the open internet and edited by hams in the south west area of BC. Once a day, it is synchronized to a read-only copy hosted on [VA7FI's Linux Server](#) accessible only on the AREDN network. That way:

- The live wiki can be accessed by people new to AREDN and stay accessible regardless of what may happens to VA7FI's node, and
- This read-only copy can be accessed by hams without an internet connection via the AREDN network.
