

Mesh Chat

Using Mesh Chat is easy: simply click on a Mesh Chat service and enter you're callsign.

At the moment, we have three Mesh Chat instances that sync to each other:

- [VE7TOM-HAP](#)
- [VE7TOM-HAP-1](#)
- [VE7AX-2](#)
- [VA7FI-HAP-1](#)

Hosting a Mesh Chat Instance

To synchronize Mesh Chat instances together, simply change the name to MIMeshChat

More information can be found [here](#).
