

# 48-ft Tower \$400

The SCARCS is selling a **48 foot Antenna Tower for \$400.**

The tower was donated to us by a local ham operator here on the Coast. Patrick, VE7HZF helped take it down and it seemed in very good condition. It can very easily be loaded in a pickup truck for transport.

It has the following markings at the base of each section say: *DMX-B-136, DMX-B-133, DMX-B-131, DMX-B-129, DMX-B-128, DMX-B-126*

[See this PDF](#) for more details.
